

“Impact by the numbers” 2019 graphic

At the top of the graphic is the headline “Impact by the numbers” with the subhead of “IU’s statewide impact is 92 counties strong.”

Above the word “impact” is a red line, and the IU trident is to the left of the word.

Underneath the headline and subhead are five icons as follows: a graduation cap, a stack of books, a diploma, office buildings and a stack of coins.

Next to the symbols is the information as follows:

- More than 325,000 living alumni
- More than 64,000 total in-state students
- 17,000 degrees completed by in-state residents
- More than 20 IU locations
- More than \$561 million spent on goods and services

Next to the icons is a silhouette of the state of Indiana. Thirteen geolocation symbols are on the state icon, representing Indiana regions with IU campuses, IU School of Medicine medical centers and IU regional education centers.

Below the icons and state silhouette is one line of text that reads, “Learn more about Indiana University’s economic impact at statewide.impact.iu.edu.”
