

This image contains a horizontal bar graph. The top of the graph is labeled "Support for environmental policies, % supporting 'somewhat' or 'to a great extent.'" The bottom of a chart contains a scale from 20 percent on the left to 90 percent on the right.

The first bar is labeled "Policies that seek to mitigate increased disease risk from pests like mosquitos" and ends midway between 80 and 90 percent.

The second bar is labeled "Policies that seek to lessen damage to agriculture" and ends slightly over 80 percent.

The third bar is labeled "Policies that seek to lessen the impact of flooding" and ends slightly under 80 percent.

The fourth bar is labeled "General initiatives to prepare for effects of climate change" and ends midway between 70 and 80 percent.
